

CRITERIUM[®] **BUSTAMANTE ENGINEERS**

When any of the following issues arise, it's time to call in a Professional Engineer from Criterium-Bustamante Engineers:

- Foundation or Wall Cracking
- Water Penetration Issues
- Termite Damage
- Stucco and/or Facade Issues
- Roof Truss Concerns
- Sloping or Sagging Floors
- New Homes Under Construction
- If a Mortgage Company or Bank Requires an Engineer's Opinion Before Underwriting the Loan
- Whenever There is a Concern About the Structural Integrity of the Home

Our Home Inspections also Include a Full Structural Evaluation

WHEN DO YOU NEED A STRUCTURAL INSPECTION FROM A LICENSED PROFESSIONAL ENGINEER?

Criterium-Bustamante Engineers, Inc. is dedicated to assisting homeowners, buyers, building owners and contractors with:

- Structural Inspections
- Home Inspections When a Client Requests a Professional Engineer
- Municipal Certifications
- Stormwater Management
- Design Services
- Forensic Investigation
- Building Permit Procurement

With over 15 years of experience serving real estate professionals, the licensed Professional Engineers at Criterium-Bustamante Engineers have earned a solid reputation for competence, professionalism, and thoroughness. Our comprehensive reports get right to the point, offer clear, concise repair options, contain engineer's estimates, and include phone support. Furthermore, we can assist with designs/specifications and construction monitoring to check quality throughout the process.
